

National Maternity & Perinatal Audit

Impact of the NMPA March 2022- February 2023

NATIONAL: How the project provides evidence of quality and outcomes of care nationally.

Individual [hospital posters](#) developed and published on the NMPA website in Dec 2022. Hospitals are able to generate and download a poster listing their results across all measures compared to the national average.

[Clinical report](#) published in July 2022 looking at English and Welsh 2018/2019 data.

[Bloodstream infections short report](#) published in February.

NMPA website (analytics for the period March 22- Feb 23):

- 8,613 new users
- 70,331 page views
- 82% Great Britain
- 5% USA
- 9% other countries

In November 2022, NMPA clinical fellows presented at the West Midland Obstetric and Gynaecology Trainees Annual Scientific Meeting, one topic was on how data from a national audit can drive QI initiatives. Attendee feedback was positive with plans for this to repeated around the country in order to improve awareness and knowledge of how to use the NMPA in order to improve outcomes.

Several of the NMPA measures (including low Apgar and perineal tears) have been used within the Maternity Transformation Programme. These data are now available in the National Maternity Dashboard - <https://digital.nhs.uk/data-and-information/data-collections-and-data-sets/data-sets/maternity-services-data-set/maternity-services-dashboard>

NMPA data is provided for the National Clinical Audit Benchmarking (NCAB) online portal – <https://ncab.hqip.org.uk>

Group B Strep Support @GBSSupport

We were part of the advisory group for the @nmpa_audit's Bloodstream Infections in NHS Maternity and Perinatal Care for Women and their Babies report.

#maternity #infection #audit

The UK Sepsis Trust @UKSepsisTrust

We were part of the advisory group for a Bloodstream Infections in NHS Maternity and Perinatal Care for Women and their Babies report.

Linking maternity and baby/neonatal data together with infection data is vital to explore how bloodstream infections affect mothers and babies.

Silvia Alòs @SilviaMidwife

Such an inspiring presentation to listen to today at @TheConf_TCD on the #InternationalWomensDay

Maternity services are better thanks to your hard work @nmpa_audit

Ursula Nagle @PerinatalMW · 8 Mar

Replying to @nmpa_audit @TheConf_TCD and 5 others

Looking forward to the upcoming #perinatal report @TheConf_TCD
